

2017-2018 STARBASE 2.0 Mentor Application Packet

Mentor Recruitment and Selection Guidelines

To serve as a mentor, individuals should have a mix of STEM expertise/interest (or the capability to learn STEM basics), maturity, and a willingness to serve. The following are guidelines to keep in mind when considering becoming a mentor. A mentor team includes a “teacher sponsor” and representatives from local STEM industries, college/university students, and members of the United States (U.S.) Armed forces (i.e. U.S. Air Force, U.S. Military). We do our best to maintain a ratio of 1 mentor for every 3-4 students.

Potential mentors should:

- Be at least 18 years of age.
- Be comfortable and enjoy working with middle school students.
- Maintain an interest/background in STEM. For example, mentoring teams may be made up of:
 - College/University Students
 - Lab technician, Biology teacher, Engineering graduate student
 - Software engineer, Aircraft mechanic, Physics teacher
 - Mathematics teacher, nurse, intern at local software company
- **Note:** We are looking for mentors in every career field. Although STEM knowledge and experience is not mandatory, a mentor should have both a willingness and maturity to take on this responsibility.
- Successfully pass STARBASE 2.0 mentor screening including:
 - Application
 - Interview
 - A criminal background check
 - Provide a color copy of a government issued ID (i.e. Driver’s license, Military ID)
- Commit to adhering to the STARBASE 2.0 schedule in meeting duration/frequency.
 - 2 hours per week
 - 1 semester (minimum)
 - Specific schedules are established with local area middle schools in advance of mentor training.
- Participate in STARBASE 2.0 mentor training.
 - Mentor training will be a half-day session (approximately 4 hours) held in August 2017 and January 2018 for each semester respectively.
